Kansas Department of Health and Environment released

the updated abortion statistics. The numbers were heartbreaking though not surprising. Abortions increased by 57% from 2021 to 2022 with a 31% increase being performed on out of state residents primarily from Missouri, Arkansas and Texas. Just as we warned and feared during Value Them Both, Kansas is now the Midwest destination for abortion.

To help address and answer the many false claims of the abortion industry in the national conversation, the USCCB Committee on Pro-Life Activities has created an infographic that simply and clearly explains truth about abortion and women's health. This helpful tool can be found online at <https://www.usccb.org/resources/truth-about-abortion-and-womens-health>. Please continue to pray for our unborn.
